(Given to Dr. Guthe as revision of Enclosure 2 of the
GRA contribution -- see memo dated 17 July)

5 JUL 1958

a. The coordinated foreign map procurement program effectively met the requirements placed on it by participating agencies. Although the collection of Soviet Bloc topographic maps continued to be very limited, major receipts were achieved in peripheral areas. New and detailed guidance to covert collectors has been developed in the continuing effort to solve the Soviet Bloc map procurement problem.
